R. K. MARTIN, Grade A Dairyman from Pamplin, was one of three dairymen who grew Pioneer 3193, a new corn variety this year. This is a fairly early corn that Martin calls a 110 day variety. He says, "It's a pretty good corn."

Elliott Torrence also grew this variety and was attracted by its tight shuck and many stalks had two ears. Torrence feels that it is a good corn but that there are probably other varieties that will perform better.

J. LYLE MOORE AND SON RONALD, Route 2, Concord, completed the construction of a two-acre pond in August. The pond was built under SCS supervision and will be used as a source of water for livestock and recreational purposes.

Rolling Acres Farm consists of 150 acres with 95 acres in fescue pasture and 30 acres in hay, corn and dark tobacco.
